1. Introduction

Door options include passage doors, sliding doors, and overhead doors. Rough Brothers offers an array of doors from a variety of suppliers to ensure your needs are met.

2. Steel Insulated Passage Doors

Durability is the key reason Rough Brothers has chosen steel insulated doors. Available in single or double leaf style, either full steel panel or half lite. Doors are furnished complete with jambs, threshold, hinges, and hardware. Optional closers and panic bars are available.

3. Full Glass

Full glass doors are most common for retail facilities or area in which full visibility is essential. Available in either single or double leaf, full glass doors are furnished complete with jambs, threshold, hinges, and hardware. Optional closers are available.

4. Sliding Doors

Manual Manual sliding doors are top hung style and available in an array of sizes. Glazed with polycarbonate, each door is custom made for your facility. Additional glazing options on standard sized doors include glass, plexiglass, and insulated panel.

5. Automatic/Electric

Automatic or electric sliding doors provide safe, convenient and elegant entry into your facility. Each door is custom to your project, and available in an array of sizes. Options include transom above the door, access control with card readers, and more.

6. Overhead Doors

Steel Ribbed doors are available either insulated or non-insulated and furnished complete with brackets, standard track, counterbalance mechanism and hardware. Optional motor kits and custom tracks available.

Aluminum sectional overhead doors with choice of glass, plexiglass or aluminum panel glazing. Each door is custom made for your facility. Doors are furnished with brackets, standard track, counterbalance mechanism and hardware. Optional motor kits and custom tracks available.

7. Roll Up Doors

Interlocking steel or aluminum doors are available either insulated or non-insulated and furnished complete with brackets, hood, counterbalance mechanism and hardware. Available in an array of sizes and styles. Optional electric operators available.
